FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

IF SWALLOWED: Have person sip a glass of water if able to swallow. **DO NOT** induce vomiting unless told to do so by a poison control center or doctor. **DO NOT** give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

PRODUCT INFORMATION

INVADE RST contains a distinct, high-quality combination of methylated soybean oil and organosilicone surfactant. The oil is a superior penetrant that aids certain pesticides in moving through the waxy cuticle of plants and leaves for greater efficiency. In addition, the organosilicone surfactant increases spreading and wetting of the applied solution so that the active moves to and through the plant quickly. Use *INVADE RST* wherever a label calls for an MSO or MVO and allows or does not exclude the use of an organosilicone.

DIRECTIONS FOR USE

INVADE RST is designed for use with herbicide, insecticides, and defoliants. As with all spray applications, be certain the mix tank and spray equipment is clean and free from previous spray solution residues. Always follow the pesticide label instructions for mixing and use. If no mixing instructions are available, add tank mix partners in the following order, maintaining agitation throughout:

1. Water to $\frac{3}{4}$ of target volume
2. AMS, fertilizers and micronutrients
3. If foaming is anticipated, add antifoaming agent
4. Water soluble actives (dry flowables, granules, etc.)
5. Flowable and water soluble actives
6. *INVADE RST*
7. Water to desired target volume

USE RATES

Herbicides

Ground rates $\frac{1}{2}$ to 2 pints per acre in 10 to 20 gallons of spray solution. Aerial rates $\frac{1}{2}$ to 2 pints per acre in 5 to 10 gallons of spray solution.

Insecticides

Ground rates 4 to 16 ounces per acre in 5 to 10 gallons of spray solution. Aerial rates 4 to 6 ounces per acre in 2 to 5 gallons of spray solution.

Defoliants

Ground rates 4 to 16 ounces per acre in 5 to 10 gallons of spray solution. Aerial rates 4 to 6 ounces per acre in 2 to 5 gallons of spray solution.

NOTE: *INVADE RST* should be used only in accordance with recommended rates on the label of companion herbicides, defoliants, or insecticides. For new uses it is recommended that small test areas be treated and evaluated before large scale applications.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. **DO NOT** add anything to the container. Keep container tightly sealed when not in use. **DO NOT** store near fire, flame or other potential sources of ignition. **DO NOT** contaminate water, food or feed by storage or disposal of this product. Shake well before using. If product freezes, allow to thaw, then shake well. For optimal storage, store between 40° and 90 °F.

DISPOSAL: DO NOT reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

WARRANTY

Seller warrants that the product conforms to the chemical description on the label is reasonably fit for the purpose stated on the label when used in accordance with the directions for use under normal conditions. Neither this warranty nor any other warranty or merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label directions, or under abnormal conditions, or under conditions not foreseeable to seller. Buyer assumes risk under any such use insufficient control of pests and/or crop injury may result from unusual environmental conditions, failure to follow pesticide label directions or poor application practices, all of which are beyond the control of INNVICTIS CROP CARE LLC.
