PLANT HEALTH TECHNOLOGIES

GUARANTEED ANALYSIS

Soluble Potash (K_2O) 1.0%
DERIVED FROM: potassium hydroxide.

ALSO CONTAINS NON-PLANT FOOD INGREDIENT

6.6% Humic acids derived from Leonardite

TOXICITY END POINTS FOR THIS PRODUCT EXCEED GHS CLASSIFICATION

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label on hand.
Keep out of reach of children.
Read label before use.

PRODUCT INFORMATION

COMPOSE can be applied to crops including but not limited to: vegetable crops, row crops, field crops, feed crops, crops grown for seed production, tree fruit and nut crops, berry crops, grapes, ornamentals, lawns, gardens, and landscaping. COMPOSE can be applied to all soil types and pH ranges, to all transplant solutions, planting dips, and to all watering solutions including applications through low-pressure irrigation systems, and sprinkler irrigation systems. COMPOSE can be mixed with almost all liquid fertilizers and liquid nutrients, including seeding, pre-plant, side-dress, and water runs. COMPOSE is compatible with almost all fertilizers, nutrients, pesticides, fungicides, and defoliant. If unfamiliar with its use, be sure to check with Simplot Grower Solutions for compatibility, or perform a jar test, mixing each product in the same ratio as to be field applied. Fertilizers or nutrients with an extremely low pH will cause the humic fraction to precipitate. It will be necessary to agitate your mix to obtain an even distribution of the humic fraction. COMPOSE is not a replacement for COMPOSE-G™ but is designed as a companion product. Humic acids may aid in the uptake of micronutrients.

DIRECTIONS FOR USE

SOIL APPLIED: Apply 3–10 gallons of COMPOSE per acre. (Preferably 1/2–1 1/2 gallons applied over multiple applications). It may be applied by water run, side-dress, mixed with soil-applied liquid nutrients, or sprayed directly on the soil. When sprayed or side-dress without mixing with other nutrients, COMPOSE should be diluted in 3 to 10 gallons of water.

PIGGYBACKED WITH NUTRIENTS: Apply 1/2 to 2 gallons of COMPOSE per acre mixed with the liquid nutrients. Add COMPOSE to a partially filled tank. Include COMPOSE with every application.
SPRINKLER OR DRIP IRRIGATION: Smaller amounts of COMPOSE may be applied in every irrigation instead of only one application. COMPOSE is not corrosive to pipes or nozzles and will not plug them.
SEED SOAK: Add 1/2 gallon of COMPOSE per 20 gallons of seed soak solution.
TRANSPLANTING OR CUTTING: Mix 1/2 gallon of COMPOSE per 20 gallons of solution.

STORAGE & DISPOSAL Store product in original container tightly closed, upright, in a dry place.

WARRANTY, DISCLAIMER AND LIMITATION OF DAMAGES

INNICTIS BioScience Plant Health Technologies warrants only that this product conforms to the product description on the label and is reasonably fit for the purposes stated in the Directions For Use. The Directions for Use of this product are believed to be adequate and must be followed carefully. It is, however, impossible to eliminate all risks associated with this product. Crop injury, ineffectiveness, or other unintended consequences may result due to such factors as weather conditions, presence or absence of other materials, or the manner or use or application, all of which are beyond the control of INNICTIS BioScience Plant Health Technologies. All such risks must be assumed by the buyer or user. Except as warranted on this label, INNICTIS BioScience Plant Health Technologies makes no representation, warranty or guarantee, whether expressed or implied including, but not limited to, warranty of merchantability, fitness for a particular purpose, or otherwise. No agent or representative of INNICTIS BioScience Plant Health Technologies or the seller of the product is authorized to amend the terms of this Warranty disclaimer or the product's label or to make a representation or recommendation different or inconsistent with the label of this product. To the extent consistent with applicable law, INNICTIS BioScience Plant Health Technologies' maximum liability for breach of its warranty or for use of this product, regardless of the form of action, shall not exceed the purchase price of this product. To the extent permitted by applicable law, INNICTIS BioScience Plant Health Technologies shall not be liable for consequential, special or indirect damages resulting from the use, handling, application, storage, or disposal of this product or for damages in the nature of penalties, and the buyer and the user waive any right that they may have to such damages. If the warranty and liability limitations or disclaimer are not acceptable, return the unopened container to the place of purchase for full refund. To the extent not inconsistent with applicable law or the label, the purchase, delivery, acceptance and use of this product by the buyer is subject to the terms and conditions of seller's sales invoice for this product.
