**KEEP OUT OF REACH OF CHILDREN
WARNING**

HAZARD STATEMENTS

May be harmful if swallowed
May be harmful in contact with skin.
Causes mild skin irritation.
May be harmful if inhaled
Causes eye irritation.

PRECAUTIONARY STATEMENTS

General:

If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.

Response:

Call a POISON CENTER or doctor/physician if you feel unwell.

IF INHALED: Call a POISON CENTER or doctor/physician if you feel unwell.

If skin irritation occurs: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

PRODUCT INFORMATION

INNICTIS MICROMIX is 100% EDTA chelated (except Boron) for easy mixing, even distribution and consistent, uniform delivery of micronutrients to each plant. It provides a synergistic, comprehensive and plant-available blend to complement in-furrow or foliar NPK Fertilizer program.

Micronutrients act as catalysts, initiating or accelerating reactions, improving nutrient uptake and plant growth. INNICTIS MICROMIX contains 6 of these essential micronutrients because a deficiency of any one of these micronutrients in the soil can negatively impact the plants growth and ultimately crop yield.

INNICTIS MICROMIX is designed for optimal agronomic and economic performance to help plants overcome micronutrient deficiencies of these 6 micronutrients.

INNICTIS MICROMIX can be applied to any crop that needs micronutrients and can be applied foliar or in the soil. Crops benefiting from the application of INNICTIS MICROMIX include, but are not limited to, Alfalfa, Canola, Corn, Cotton, Milo, Soybeans, Sugar Beet, Sunflowers and Wheat, Potatoes, Fruit and Nut trees, other grain crops, Rice, Onions, other vegetables.

DIRECTIONS FOR USE

INNICTIS MICROMIX Liquid can be applied in-furrow, pop-up, 2x2, surface dribble or foliar (center pivot injection, drip irrigation, ground or aerial) with water or NPK fertilizers including high ortho-phosphate fertilizers such as CAPTIVATE, CAPTIVATE D or VELOCITY CS.

APPLICATION RATES:

In-Furrow/Banded/2x2 application: Apply 1-4 pints per acre

Foliar application: Apply 1-2 pints per acre. Can be tank-mixed with glyphosate for foliar applications.

Split application rates: Apply 1 quart/acre in-furrow or 2x2 plus 1 quart/acre as a foliar (V4-V12)

*Crop(s) may benefit from a split application of 2 quart/acre.

* Increased application rates may be advantageous in high-yielding environments or in soil samples that have been tested and found deficient in micronutrients.

COMPATIBILITY:

- INNICTIS MICROMIX is completely compatible with phosphate containing fertilizers. This includes high ortho-phosphate fertilizers like CAPTIVATE, CAPTIVATE D and VELOCITY CS.

- INNICTIS MICROMIX can be tank-mixed with solutions containing no more than 30% ammonium thiosulfate (ATS), potassium sulfate (KTS) and potassium bisulfite (DIVERSE K) by volume.

- INNICTIS MICROMIX can also be tank mixed and applied with glyphosate and/or other pesticides, herbicides, fungicides and insecticides if not prohibited by the pesticide label.

Always perform a compatibility (jar) test with all tank mix ingredients. When tank mixing with pesticides always read and follow label directions including mixing order.

SEED SAFETY:

INNICTIS MICROMIX liquid is non-corrosive and has been agronomically tested for seed safety. It accommodates safe in-furrow application on most crops at label rates.

STORAGE & DISPOSAL

Store product in original container tightly closed, upright, in a dry place. **DO NOT** store in excessive cold or heat. **DO NOT** reuse container. **DO NOT** contaminate water, food or feed by storage or disposal. Triple rinse or equivalent and dispose of container in accordance

with local, state and federal regulations.

WARNING: This product contains boron and should be used only as recommended. The use of this product on any crops other than those recommended may result in serious injury to the crop(s).

WARNING: This product is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

WARRANTY, DISCLAIMER AND LIMITATION OF DAMAGES

INNICTIS BioScience Plant Health Technologies warrants only that this product conforms to the product description on the label and is reasonably fit for the purposes stated in the Directions For Use. The Directions for Use of this product are believed to be adequate and must be followed carefully. It is, however, impossible to eliminate all risks associated with this product. Crop injury, ineffectiveness, or other unintended consequences may result due to such factors as weather conditions, presence or absence of other materials, or the manner or use or application, all of which are beyond the control of INNICTIS BioScience Plant Health Technologies. All such risks must be assumed by the buyer or user. Except as warranted on this label, INNICTIS BioScience Plant Health Technologies makes no representation, warranty or guarantee, whether expressed or implied including, but not limited to, warranty of merchantability, fitness for a particular purpose, or otherwise. No agent or representative of INNICTIS BioScience Plant Health Technologies or the seller of the product is authorized to amend the terms of this Warranty disclaimer or the product's label or to make a representation or recommendation different or inconsistent with the label of this product. To the extent consistent with applicable law, INNICTIS BioScience Plant Health Technologies' maximum liability for breach of its warranty or for use of this product, regardless of the form of action, shall not exceed the purchase price of this product. To the extent permitted by applicable law, INNICTIS BioScience Plant Health Technologies shall not be liable for consequential, special or indirect damages resulting from the use, handling, application, storage, or disposal of this product or for damages in the nature of penalties, and the buyer and the user waive any right that they may have to such damages. If the warranty and liability limitations or disclaimer are not acceptable, return the unopened container to the place of purchase for full refund. To the extent not inconsistent with applicable law or the label, the purchase, delivery, acceptance and use of this product by the buyer is subject to the terms and conditions of seller's sales invoice for this product.
