### PRODUCT INFORMATION

KICKER PLUS is a highly active ammonium sulfate drift retardant based solution designed to reduce drift while enhancing herbicide performance by modifying solution Ph and water hardness. The ammoniacal nitrogen in KICKER PLUS has been found to promote herbicide (such as glyphosate) uptake in agricultural applications. KICKER PLUS' use of high quality spray grade ammonium sulfate eliminates cold water sedimentation and nozzle plugging commonly found with dry ammonium sulfate. KICKER PLUS also contains a Ph stable antifoam which helps control foaming during tank mixing.

### DIRECTIONS FOR USE

**FOR USE WITH PRODUCTS REGISTERED FOR: AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND OTHER USES. THIS PRODUCT CANNOT BE USED FOR AQUATIC APPLICATIONS.**

The addition of KICKER PLUS to a tank mix should always follow the review of herbicide labels and their procedures, rates and application requirements. Before using KICKER PLUS, it is recommended that the user be familiar with or conduct a field test to check for phytotoxicity of the herbicide combination.

### RECOMMENDED USE RATES

Glyphosate and other tank mixes: Use a rate of 2.5% (2.5 gallons/100 gallons solution) for 8.5 lbs. of ammonium sulfate/100 gallons. Use a rate of 5% (5 gallons/100 gal solution) for 17 lbs. of ammonium sulfate/100 gallons.

### USE PRECAUTIONS

The degree of drift hazard varies with the type of pesticide, application conditions, and vegetation near the sprayed area. Common sense and sound application technology must be followed when spraying pesticides. KICKER PLUS will retard but not totally eliminate drift

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Do not allow to freeze. For optimum storage stability, store at temperatures between 40°F (5°C) and 90°F (32°C). Avoid contact with iron clad, copper and copper bearing materials. Do not store near oxidizing materials.

**DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

### DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE
