HAZARD STATEMENTS

May be harmful if swallowed.
May be harmful in contact with skin.
May be harmful if inhaled.
Causes eye irritation.

PRECAUTIONARY STATEMENTS

If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.

Prevention:

Wash hands, face and other affected areas thoroughly after handling.
Wear protective gloves, chemical splash proof goggles and face protection. Use only outdoors or in a well ventilated area.

Response:

Call a POISON CENTER or doctor/physician if you feel unwell.
IF INHALED: Remove person to fresh air and keep comfortable for

breathing.

IF SWALLOWED: Rinse mouth, do NOT induce vomiting. Drink 2 glasses of water.

IF ON SKIN (OR HAIR): Wash with plenty of water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical advice/attention

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

ADDITIONAL PRECAUTIONARY STATEMENTS

Avoid prolonged or repeated contact with eyes, skin and clothing. Chemical goggles or a full face shield should be worn. To protect skin wear appropriate protective equipment, such as rubber or plastic aprons, rubber gloves and boots.

Avoid breathing mist or vapor. Keep containers closed. Wash thoroughly after handling.

May cause gastrointestinal distress if swallowed.

In case of emergency call CHEMTREC 1-800-424-9300

PRODUCT INFORMATION

TETRX is a soil or foliar applied plant food containing multiple phosphate sources, plus a chelated micronutrient package. Using TETRX as a starter in-row or sprayed over the top of the row promotes root development and early seedling growth by supplying nutrients vitally needed by young plants under cool, wet spring conditions. Continue with multiple applications throughout the growing season to provide a continuous supply of nutrients at or near the time they are needed most.

APPLICATION INSTRUCTIONS

TETRX can be used with most pesticides. Always perform a jar test for compatibility.

Mixing Instructions: Use only the following sequence:

1. Water
2. This Product
3. Pesticides or fertilizers

Rates and timing of applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis. Local climatic conditions, infestations and other factors affect the performance of any pesticide or nutritional spray. Therefore, consult your local chemical company representative or agricultural extension agent for specific use information in your area.

SUGGESTED APPLICATION RATES

SOIL APPLICATION: Apply 2-4 qts./acre at planting as a row starter or in covering soil.

FOLIAR APPLICATION:

Cotton: Apply 1-2 qts./acre in a band over the row in enough water to give good coverage. Use 2-4 qts./acre in a broadcast spray.

Peanuts: Use 2-4 qts./acre early season. Repeat before bloom and continue at 10-14 day intervals.

Soybeans: Use 2-4 qts./acre with each application starting no later than first bloom. Continue as needed through pod development.

Vegetables: Use 1-4 qts./acre depending on size of plants. First application should be made prior to flowering and/or fruiting. Continue throughout season at 7-10 day intervals.

Alfalfa Hay: 2-4 qts/acre broadcast.

Other Crops: Use 1-4 qts./acre starting no later than first bloom or fruiting stage and continue every 10-14 days along with regular spray program.

Tobacco & Other Transplants: Apply at the rate of 2-4 qts./acre in transplant water or banded over the row.

HANDLING AND STORAGE

Store in cool, dry place in original container in a locked storage area above 32 °F and inaccessible to children, pets, domestic animals or wildlife. This product may be corrosive to aluminum, mild steel and

brass. Store in HDPE, fiberglass or stainless steel containers. Use only stainless steel, P.V.C., or polypropylene fittings.

CONTAINER DISPOSAL: DO NOT reuse empty containers. Triple rinse (or equivalent) then offer for recycling or disposal by procedures approved by state or local authorities.

IN CASE OF SPILL: Contain spill and maximize recovery. Keep spill out of water sources. Exercise caution in area of spill for slippery conditions. Dispose of spilled material in accordance with regulatory requirements.

WARNING: This product contains boron and should be used only as recommended. The use of this product on any crops other than those recommended may result in serious injury to the crop(s).

WARNING: This product is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>
