

Allevia is a unique blend of micro and secondary nutrients designed to improve uptake and help alleviate osmotic stress in plants. Allevia is an enhanced micronutrient package for increased uptake and plant utilization for all crops during critical growth stages. It's novel complexing agent also works to protect the plant from herbicidal effects.

BENEFITS

- Improves plant health, quality and yield
- Mitigates plant stress
- Contains crucial nutrients such as zinc, manganese and sulfur
- Effectively delivers boron, a key nutrient for nitrogen metabolism and root nodulation formation
- Compatible with most pesticides including glyphosate based herbicides
- Approved tank mix partner for Engenia® and Enlist Duo® platforms*

*Approved for these platforms for the 2018 market year.

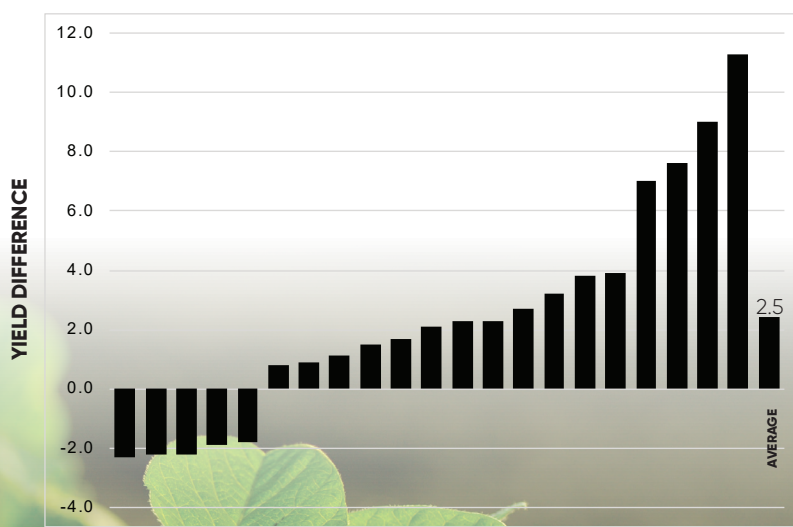

CROP/ RATES

- **Ground:** 1-3 pt/A
- **Aerial:** 1-3 pt/A in a minimum of 2 gallons of water per acre
