

DIVERSE K™

0-0-23-8S

Diverse K 0-0-23 8S is a starter fertilizer containing plant available potash and sulfur. It is a seed safe in-furrow product designed for starter fertilizer applications to give potash and sulfur deficient crops an early season boost. Diverse K can be tank-mixed with poly and ortho phosphate fertilizers for a complete blend of nutrients.

BENEFITS

- Excellent in-furrow potassium and sulfur source for increased vigor
- Potash source gives plants stronger stalks
- Early season sulfur allows for maximum early plant development
- One of the safest materials tested in germination trials

TANK MIXES

Mixes with poly and ortho phosphate fertilizers. When mixing with UAN always add 1 gallon of water for every 1 gallon of Diverse K used. Always jar test applications to determine compatibility

TIMING

- In-Furrow
- Sidedress
- Foliar
- 2x2
- Fertigation
- Sprinkler/Center Pivot
- Micro-Sprinkler
- Drip Irrigation
