PRODUCT INFORMATION

VIXEN AC-L contains a blend of highly-effective water conditioning agents that are specifically designed to minimize the interaction between ions and active ingredients. *VIXEN AC-L* contains ammonium ions and has been shown to activate glyphosate tank mixes. *VIXEN AC-L* can be used with any pesticide where interaction with ions may occur and/or ammonium sulfate is recommended in the tank mix. *VIXEN AC-L* should be used wherever acidifiers and acidic tank mixes are allowed. *VIXEN AC-L* can be used with herbicides, fungicides, insecticides and many other pesticides. *VIXEN AC-L* is especially effective when used with weak-acid herbicides such as glyphosate and 2,4-D.

DIRECTIONS FOR USE

VIXEN AC-L does not contain surfactant or oil. If the pesticide label recommends or requires the use of a surfactant or oil, these should be added along with *VIXEN AC-L*. This product lowers pH into a range which enhances the performance of most weak acid pesticides. Use with pesticides that are compatible with lower pH. **DO NOT** use with copper-containing fungicides. Minimize worker exposure by using measures that are required for pesticide handling. *VIXEN AC-L* may be added before or after the pesticide is added to the tank mix. Although addition beforehand will prevent unwanted interactions, the interaction may be reversed afterward, although addition of larger amounts may be required. Never exceed the highest recommended dose. NOT FOR AQUATIC USE IN WASHINGTON STATE.

APPLICATION RATE RECOMMENDATIONS

Ground: 0.5 to 2 quarts per 100 gallons

Aerial: 1 to 2 quarts per 100 gallons.

Water Conditioning: 1 to 5 pints per 100 gallons of spray tank solution is highly effective as an acidifier and water conditioner. 8.5 lbs. of AMS per 100 gallons has been proven to be replaced by 2 quarts of *VIXEN AC-L*.

VIXEN AC-L, used at the suggested rates will deliver water conditioning activity equivalent to 3 to 8.5 lbs. of ammonium sulfate per 100 gallons of water.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in original container only, away from other pesticides, fertilizers, food or feed. Store in a cool, dry place. Keep container sealed when not in use.

DISPOSAL: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. Dispose of contents / container in accordance with local / regional / national regulations. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.
